

NorthStar Advantage slot edge - 1:1 print check. PRINT AT 100% / ACTUAL SIZE (no fit-to-page).

Lay over the SIO card in the same orientation; solid fingers must align with gold,
dashed outlines must align with the SIO's unplated (empty) positions.

scale check: ticks every 0.125", long ticks every 1.000"

COMPONENT SIDE up, fingers pointing AWAY from you (your photo orientation): even pins, 2 left ... 30 right

SOLDER SIDE up, fingers pointing AWAY from you: odd pins, 29 left ... 1 right

Span check: first-to-last finger centers = 1.750 in. Connector pitch 0.125 in.

If anything misaligns by more than half a finger width, STOP and re-measure before fab.
